## THE NEWS OF THE WEEK. A Daily Resume of Important Happenings.

April 28.  
It is announced that President Roosevelt will break camp in Colorado on May 8, a week earlier than he had intended, and start for Washington at once. It is believed that the Venetian embargo has led to the alteration of his original plans.

Miss Mary C. Slaughter, of Bowling Green, Ky., and James C. Murrell, of Fort Mckenzie, Wyo., were married by telegraph. The bride and groom being at one end of the line, while the groom and a preacher were at the other end. Miss Slaughter will at once join her husband and go with him and his regiment to the Philippines.

Acting Secretary of State Loomis has issued a statement declaring the charges made against him in certain newspapers, to the effect that while Minister to Venezuela he received pecuniary benefits from the New York and Bermuda Asphalt Company, and that he bought and presented claims against the Venezuelan Government, to be absolutely false.

Andrew Carnegie has given \$10,000,000 in United States Steel Corporation bonds as a fund to provide pensions for college professors. No discrimination in the application of the fund is to be made on account of race, sex, creed, or color, but professors in strictly sectarian colleges will not be included among the beneficiaries. The estimated annual income from the fund will be \$500,000.

James Hargis took the stand in his own behalf and denied all connection with the killing of James Cockrell, Town Marshal of Jackson. He made a sweeping denial of statements made by Miss Feltner, Felix Feltner and other witnesses for the prosecution. He said that the \$15,000 given to Felix Feltner was in the nature of a loan. Feltner executing a note for the amount. This note and the check were presented as evidence to Hargis.

When Attorney Bronston had concluded his cross-examination of James Hargis at Lexington the accused made a dramatic statement to the jury claiming to be innocent of the charges against him. King Ford, the principal witness for the defense, testified and then Col. Allen for the prosecution produced a copy of an indictment against Ford, charging him with obtaining money by false pretenses in Letcher county. A rule for contempt of court was issued against Brock Combs, Acting Judge of Breathitt county, charged with attempting to intimidate a State witness, and will be heard by Judge Parker to-day.

April 29.  
Gen. Fitzhugh Lee, of Virginia, died at the Providence Hospital in Washington at 11:20 o'clock last night as the result of an attack of apoplexy and paralysis, with which he was stricken yesterday morning while traveling on a train from Boston to Washington.

The fact is said to have been developed that the new criminal code of Indiana contains no penalty for its commission. Further, it does contain a section declaring that "all law within the purview of this are hereby repealed."

The State Department let it be known yesterday that an investigation of the charges against Assistant Secretary Loomis was made some time since, and that there was no doubt of his innocence. Minister Brown will be given a chance to prove his case, however, in default of which he is likely to be dismissed from the diplomatic service.

The State Board of Equalization has taken preliminary steps to raise the values in twelve of the twenty-four counties of the Seventh appellate district, accepting the assessments in the other twelve. The board accepted the assessments of Lyon and Graves counties without change, but increased by 10 per cent. the valuation of farm land and taxable property in Hickman county.

Dr. Washington Gladden issued a statement last night in answer to the late article of Starr Murphy, privately owned by John D. Rockefeller. Dr. Gladden claims to have searched the records and quotes from them to show that Rockefeller, when he denied on the witness stand any connection with the "Southern Improvement Company" meant to convey and did convey a false impression.

Many witnesses were introduced by the defense in the Hargis case in the hope of impeaching the testimony of the Commonwealth witnesses, Miss Feltner and Jeff Smith. They testified that the reputation of Feltner and Smith were morality and veracity was bad. To meet the counsel for the Commonwealth drew from nearly all of the "character" witnesses that they had been or were under indictment on various charges, ranging from obtaining money by false pretenses to murder, or were Hargis' partisans.

Both sides were rested in the Nan Patterson case yesterday, the defense deciding not to introduce any evidence whatever. Before concluding the prosecution called Mrs. J. Smith to the witness stand, but she refused to answer further questions, upon the ground that the answers might tend

to incriminate her and saying that she would have to "stick to her sister." The defense moved that the case be dismissed, arguing that there was not sufficient evidence against Miss Patterson to warrant submitting it to the jury, but the court overruled the motion. Arguments will be made Monday.

Secretary Taft yesterday received an application from Acting Secretary of the Treasury for the transportation of Treasury coin and bullion between the Baltimore and Ohio railroad station, in Chicago, and the sub-treasury, in that city, which is reported to be interrupted by the teamsters' strike. The Secretary accordingly instructed Col. Dugan, who is temporarily in command of the Department of the Lakes, to furnish the necessary teams and military guard upon application for the Sub-treasury.

The Federal Government yesterday took a hand in the teamsters' strike in Chicago. Judge Kohlsaat issued an injunction restraining the strikers from molesting the wagons of the Employers' Teaming Company. The injunction is a pretty effect, and the president of the Teamsters' Union promptly issued an order to the strikers to permit no violation of the order. The strike spread steadily throughout the day, and it is estimated that fully 1500 men are out and 15,000 more are rendered idle because of the strike.

April 30.  
The Board of Church Extension of the Methodist Episcopal Church, South, completed its work yesterday afternoon and adjourned, after passing the annual report and distributing the sum of \$95,000.

Cerebro spinal meningitis has become epidemic in an alarming form in Silesia, and the public health officials are much concerned about it. It is believed by German investigators of the disease that there is an intimate relation between it and influenza.

Padrowski, the pianist, who had just arrived in this country for a series of engagements, will cancel them all and return to Europe on the advice of his physician. He suffered a serious shock when the engine to which his private car was attached was derailed on the trip through New York.

Twenty-one people were killed at Laredo, Tex., and vicinity by a tornado which struck the city Friday evening. Scores of people were injured and the property loss is heavy. A special from Austin places the number of dead at upwards of 100, but this is not borne out by the reports coming directly from Laredo. The storm made its appearance from the southwest in the neighborhood of Lampasas, Tex., seventy-two miles from Laredo, and it is reported that great havoc was wrought in that locality, though it is not thought that any loss of life resulted.

May 1.

Caleb Powers will be taken to George town this morning to be present in court when steps are taken to set a date for his next trial.

A report was in circulation yesterday in Washington that Postmaster General Cortelyou had been agreed upon for president of the Equitable Life Assurance Company. The report was denied in New York.

The monthly statement of the public debt shows that it increased \$9,525,284 during April. There was also a deficit in receipts, of compared with expenditures, of \$9,211,419 for the month. The circulation statement shows there was an increase for the year of \$44,164,372 in national bank notes.

The testimony of the defense in the Hargis case in Lexington has been closed, and the Commonwealth has begun to introduce rebuttal testimony. The accused was put on the stand and made an important statement, which the next witness contradicted. Alex Hargis denied any connection whatever with the Cockrell or Marcum murders.

Bishops of the Northern and Southern branches of the Methodist Church, who have been attending board meetings in Louisville took part in a mass-meeting at the Masonic Theater and appeared on the platform together for the first time since the church divided sixty-one years ago. The Second Russian Pacific Squadron is said to be near the island of Hainan. A dispatch from Tokio to a London newspaper says the two Russian fleets are expected to unite on May 5. Gen. Linerich reports to the effect that the Russian land forces have occupied Tsingtau. The fears of popular outbreaks in St. Petersburg and other cities on Easter appear to have been groundless. No disorders have been reported from any quarter, and the celebration in the Russian capital opened uneventfully.

### Summer Course.

The Summer School in Mechanical Arts of the State College of Kentucky, Lexington, Ky., was organized for the purpose of giving to any man a special course of work in mechanical drawing, shop work, dynamo and engine testing and any branch pertaining to mechanical and electrical engineering.

For young boys courses in manual training and mechanical drawing have been arranged, such as are presented in the manual training high schools throughout the country. For more advanced students, the work in mechanical drawing is more of the nature of machine design, while for practical mechanics special courses of instruction are offered in mechanical drawing, machine design and problems relating to the transaction of power.

The Summer School will begin on Thursday June, 8th, and continue for a period of ten weeks. The hours of work will be from 8 a. m. to 5 p. m. For those men who are unable to attend during the day, special night courses have been arranged, giving the same lines of work that are presented to the day classes.

It is possible for a man during those ten weeks in the Summer School to acquire a working knowledge of the mechanical drawing and allied subjects so that he can take up simpler work in an architect's or engineer's office or in the drafting room of a machine-building establishment. No examination is held, except such tests as may be required to determine the character of work that should be given each individual student. Every one entering the school is dealt with as an individual, and work is provided for him, which can be carried on with profit.

United States steel corporation \$5,000,000 have been transferred to a board of trustees, and steps will be taken at once to organize a corporation to receive the gift. Uncle Tip left Mrs. Moore at Blaine and went to Calves Creek, then to Brushy to Milt Sweetnam's, then to the head of Brushy to the Johnson County line and across to Racoon and from there to Eli Moore's and returned to Blaine, down Irish Creek and back to Webbville and had a good trip.

Now Mr. Editor, your writer having been gone all week you don't get much from here this week. I want to say a little about the primary, as I have been almost all over the county. The candidates are perfectly in peace and harmony with each other and there is no tale telling of any consequence about each other and the best of feeling exists. Every candidate seems confident that he is the man and I hope it will continue and no one get wrong, or be misled after the convention, and that there will be no money or whiskey used in the primary, for if there is it will hurt the one who uses it. And there is not a candidate on the ticket that I will not ride or work for after the primary is over, and I can pick two or three good tickets out of all of our men and we will make certain success if we don't get up any contention in our ranks. I have met every candidate in my rounds and find every one kind to each other and content and the people treating them kindly and glad to see them. Well Mr. Editor, I leave again today to be gone four days. Hoping your paper and your town success, and with good wishes to our ticket, peace and happiness to all, I remain, A. M. Hughes.
